People say my passion for inspiring others to their inherent greatness is palpable. I will connect with you and your group, and get them excited about being more proactive in creating an easier, healthier and happier life. My many personal and client stories make the spiritual teachings real and approachable. Not only do I share from my heart and from my own experiences, my voice actually has an energy frequency that helps move your audience to higher awareness. This energy shifting makes it easier for them to let go of old programming and limited beliefs that get in the way of a better life.

"After having thoroughly enjoyed her bravery on multiple levels displayed in Suzette's Calling Back Your Power, I was moved to both tears of empowerment and laughter of triumph listening to her speak on several occasions. It is an honor to know Suzette as both a friend and a colleague. I was so proud of her ability to transform her soft, caring persona into a dynamic presence on the stage passionately conveying her remarkable journey from near death to dancing again! She is inspirational and witty, building courage and belief into our own lives that we can overcome all challenges no matter the depth and height. You will love the experience she shares. Thanks for having the courage to bring us your story Suzette! Keep Dancing!" - Steve Long, Co-Owner, Harmony Farms Natural Foods

"Suzette's Sunday service talk brought foundational Unity Principles to life in a fresh and inspiring way by including real stories of how Spirit has moved through her life. Amazing, connecting, polished yet authentic, our community was excited and renewed by her uplifting message. And, the timing was divine: after the service, we did Lesson 1 of Stretton Smith's 4T, Tithing of Time, Talent and Treasure class which dovetailed nicely with Suzette's powerful talk, reinforcing the message that God is all good, all the time—all we have to do is be open and receptive. Thank you, Suzette!" - Melanie Raskin, Board President, Unity Church of Raleigh
